Li-ION BATTERY GREASE GUN, 4 Ah, PG-20V SERIES

20 V Li-ION battery grease pump for use with standard grease cartridges or bulk grease. High pressure delivery, up to 700 bar - 10000 psi (Limited to 500 bar with safety valve) and up to 160 g/min (dual flow rate, low and high). · Supplied with one high capacity 20 V rechargeable Li-ION battery, 230 V quick battery charger, 1,1 m outlet hose with hydraulic coupler, bleeder valve, filler valve and shoulder strap. Pump is delivered in a heavy duty carrying case with metal latches and padlock ready. · Grease gun has a LCD display that provides real time critical information for keeping full control. This display turns red during stall condition, when the gun loses prime or runs out of Grease. · It has a convenient LED work light, with On/off control. · Optimized electric motor that increases battery life and works with more power for greasing through blocked and dirty grease fittings. · Up to 40 grease cartridges per battery charge (see product technical specifications). · Durable pump design with quality components provide a long and reliable life and with overpressure and overload protection. · Ergonomic design with well balanced weight that reduces fatigue during long runs and with soft grip for maximum comfort. · Fast recharge batteries, less than 90 minutes (2 Ah model). · This model has 4 Ah battery pack.
